Volume 25 title index

A reply to Randall E. LaSalle: "The civil justice system and going-concern audit reports: Comments on 'Auditors' decision-making under going-concern uncertainties in low litigation-risk environments: Evidence from Hong Kong' " 746–754

A test of the loan prohibition of the Sarbanes-Oxley Act: Are firms that grant loans to executives more likely to misstate their financial results? 485–497

An experimental investigation of accounting information's influence on the individual giving process 666–686

Auditor decision-making in different litigation environments: The Private Securities Litigation Reform Act, audit reports and audit firm size 332–353

Auditors' decision-making under going-concern uncertainties in low litigation-risk environments: Evidence from Hong Kong 706–739

Corporate governance and firm valuation 409–434

Corporate governance and the quality of financial analysts' information 609–625

Corporate governance mechanisms and the early-filing of CEO certification 121–139

Earnings quality decline and the effect of industry specialist auditors: An analysis of the late 1990s 71–90

Effect of accounting discretion on ability of managers to smooth earnings 554–573

Effects of professional and non-professional investors' perceptions of board effectiveness on their judgments: An experimental study 91–115

Fair-value accounting: A cautionary tale from Enron 465–484

Financial information systems and cyber security: A public policy perspective 119–120

Hedging, hedge accounting, and speculation in a rational expectations equilibrium 687–705

How does accounting fit into a firm's political strategy? 195–228

Income, interdependence, and substitution effects affecting incentives for security investment 629–665

Elsevier Inc.
doi:10.1016/S0278-4254(06)00101-3

Information transparency and pricing in the municipal bond secondary market 1–31

Intra-industry imitation in corporate environmental reporting: An international perspective 299–331

Market performance impacts of human capital disclosures 171–194

Public policy, political connections, and effective tax rates: Longitudinal evidence from Malaysia 574–595

Quantum information and accounting information: Their salient features and conceptual applications 435–464

The civil justice system and going concern audit reports: Comments on "Auditors' decision-making under going concern uncertainties in low litigation risk environments: Evidence from Hong Kong" 740–745

The economic benefit of goal congruence and implications for management control systems 265–298

The economic value of regulated disclosure: Evidence from the banking sector 32–70

The effect of directors' equity incentives on earnings management 359–389

The impact of the Sarbanes-Oxley Act on the corporate disclosures of information security activities 503–530

The role of peer performance in managerial compensation surrounding the 1996 Telecommunications Act 596–608

The use of management forecasts to dampen analysts' expectations 531–553

The valuation properties of earnings and book value prepared under US GAAP in Chile and IAS in Peru 140–170

The value relevance of management's research and development reporting choice: Evidence from Australia 231–264

Virtual integration costs and the limits of supply chain scalability 390–408
